- (Note 1) For the fiscal periods ending February 28, 2022, and August 31, 2022, the amount obtained by adding a portion of the retained earnings carried forward from the previous fiscal period to net income is distributed as a profit distribution. Therefore, the projected amount of net income per unit for each fiscal period (excluding distributions in excess of earnings) differs from the projected amount of net income per unit.
- (Note 2) Distributions in excess of earnings per unit consist only of the allowance for temporary difference adjustment. There is no distribution under tax law resulting in a decrease of investment capital.

#### 1. Operating Results

- (1) Operating Results
- 1) Overview of the Current Fiscal Period
  - a. Key Events of the Investment Corporation

The Investment Corporation was established in accordance with the Act on Investment Trusts and Investment Corporations (Act No. 198 of 1951, as amended; hereinafter, the "Investment Trust Act") on September 11, 2017, with Takara PAG Real Estate Advisory Ltd.; hereinafter, the "Asset Management Company") as founding planner, and completed its registration with the Kanto Local Finance Bureau on October 11, 2017 (registration number: Director of Kanto Local Finance Bureau No. 129). Subsequently, on July 27, 2018, the Investment Corporation was listed on the Tokyo Stock Exchange, Inc. (hereinafter, the "Tokyo Stock Exchange") Real Estate Investment Trust Securities Market (Securities Code: 3492). The total number of investment units issued and outstanding as of the end of the fiscal period under review (August 31, 2021) is 462,500 units.

#### b. Investment Environment and Performance

#### **Investment Environment:**

During the fiscal period under review, the Japanese economy continued to suffer under a harsh environment, with several states of emergency declared in some areas in response to COVID-19. However, Japan showed signs of a full-fledged resumption of economic activity due to progress in vaccination and other factors. In the real estate trading market, appetites remained strong for investment in high-quality, income-generating real estate among various market participants, including publicly listed and privately placed REITs, domestic and overseas private funds, real estate agents, and general business corporations, and transaction prices remained high. The real estate leasing market generally trended strongly, with the exception of certain asset types. For office space, although vacancy rates trended upward in the key office space markets of Tokyo, Nagoya, and Osaka with increased corporate needs for cost-cutting due to COVID-19 and other factors, demand for office space is expected to recover if economic activity makes a full-fledged resumption. As for residential properties, COVID-19 had limited impact, and the market remained stable. In retail facilities, although retail sales declined, lifestyle-oriented retail facilities still trended strongly. The outlook for hotels continues to be uncertain due to re-declared states of emergency and concerns over re-emergence of COVID-19.

#### Investment Performance:

Amid the aforementioned environment, while keeping the impact of COVID-19 on assets held by the Investment Corporation to limited levels, the Investment Corporation strove to achieve internal growth by negotiating rent increases and reducing costs in accordance with the four investment strategies of "steady expansion of asset size," "improvement of portfolio quality and stability," "realization of solid internal growth," and "implementation of financial strategies and other measures." In addition, the Investment Corporation took proactive action to conduct replacement of portfolio assets, selling 70% of quasi-co-ownership interest in Almost Blue in March 2021 and selling Alpha Space Toritsudai in July 2021, while acquiring each of the following: AEON Style Onomichi (Land) in March 2021, DCM Daiki Onomichi (Land), LUXENA Kadoma, and the Yoyogi 1 Chome Building in April 2021, BIGMOTOR Sapporo Kiyota (Land) in May 2021, and Cainz Omiya in July 2021.

As a result of these investment activities, operating revenues were 3,061 million yen, ordinary income was 1,621 million yen, and net income was 1,563 million for the fiscal period under review. Despite the decision to retain a portion of distributable income to stabilize future distributions per unit, distributions per unit were 3,156 yen, 56 yen higher than the forecast of 3,100 yen per unit (including distributions in excess of earnings) announced in the "(REIT) Financial Report for Fiscal Period Ended February 28, 2021" dated April 13, 2021.

#### c. Overview of Funds Procurement

The Investment Corporation refinanced 10,000 million yen (repayment date: July 30, 2021) borrowed on July 30, 2018, from the syndicate of lenders arranged by Sumitomo Mitsui Banking Corporation on July 30, 2018 (2,150 million yen (repayment date: July 31, 2024) and 7,850 million yen (repayment date: July 31, 2026)) on July 30, 2021.

As a result, the balance of borrowings as of the end of the fiscal period under review (August 31, 2021) was 43,400 million yen, and the ratio of interest-bearing debt to total assets ("LTV") was 46.0%.

On March 22, 2021, Rating and Investment Information, Inc. (R&I) assigned an "A-/Stable" issuer credit rating to the Investment Corporation, and on June 29, 2021, Japan Credit Rating Agency, Ltd. (JCR) changed its long-term issuer credit rating from "A-/Stable" to "A-/Positive."

#### d. Overview of Performance and Dividends

As a result of the aforementioned investment activities, the Investment Corporation recorded operating revenues of 3,061 million yen, operating income of 1,843 million yen, ordinary income of 1,621 million yen, and net income of 1,563 million yen for the fiscal period under review.

Dividend amounts shall exceed the amount equivalent to 90/100 of the amount of dividends available to the Investment Corporation as stipulated in Article 36, Paragraph 1 (1) of the Articles of Incorporation and Article 67-15, Paragraph 1 of the Act on Special Measures Concerning Taxation (Act No. 26 of 1957, as amended; the same shall apply hereinafter). In determining the distribution amount for the period under review, the Investment Corporation planned to retain a portion of the dividends available for internal use in order to stabilize future distributions per unit, while giving consideration to the distribution level. Specifically, the Investment Corporation decided to reserve 150 million yen internally in order to stabilize future distributions, considering that 457 million yen in gain on sales of real estate, etc. was generated, and to distribute as a profit distribution the entire amount of 1,459 million yen after deducting reversal of retained earnings and the reserve for temporary difference adjustment (which is defined in Article 2, Paragraph 2, Item 30 of the Regulation on Accounting at Investment Corporations) from unappropriated retained earnings at the end of the fiscal period under review. In addition, in consideration of the impact of the discrepancy in excess of income tax (as defined in Article 2, Paragraph 2, Item 30(a) of the Regulation on Accounting at Investment Corporations of Japan) on dividends, the Investment Corporation will distribute excess earnings in accordance with Article 36(1)(ii) of the Rules as an amount equivalent to the discrepancy in excess income tax as determined by the Investment Corporation. However, in the fiscal period under review, no distribution in excess of earnings was made due to internal reserves. As a result of the above, distributions for the fiscal period under review totaled 1,459 million yen, with distributions per unit of 3,156 yen (distributions per unit of 3,156 yen and distributions in excess of earnings per unit of 0 yen).

#### 2) Forecast for the Next Fiscal Period

#### a. Future Investment Policy

In the pursuit of "external growth," as well as "stable investment and internal growth," the Investment Corporation's basic policy is to target achieving external growth through asset acquisitions leveraging PAG Investment Management Limited's ("PAG") information collection capabilities and investment decisions and expertise capable of adapting flexibly to the market environment, and leveraging the stable property supply from the Takara Leben Group (refers to Takara Leben Co., Ltd., its subsidiaries and affiliates; the same shall apply hereinafter), an entity with high development capabilities. This basic policy also includes targeting stable investment and internal growth by combining the Takara Leben Group's value chain with PAG's asset management expertise in the Japanese real estate market, as well as the unique networks and investment expertise cultivated for individual asset classes of Kyoritsu Maintenance Co. Ltd, and Yamada Holdings Co., Ltd.

Furthermore, based on the four investment strategies of "steady expansion of asset size," "improvement of portfolio quality and stability," "realization of solid internal growth," and "implementation of financial strategies and other measures," the Investment Corporation will take the measures of "expanding asset size through stronger property acquisition," "active investment and stable management leveraging comprehensive REIT strengths," "solid portfolio management amid the COVID-19 pandemic," and "expanding financing methods and acquiring external evaluations with a focus on medium to long-term strategies" in order to improve unitholder value.

The impact of the spread of COVID-19 will continue to be monitored closely, and a certain degree of impact is also expected on the Investment Corporation's operating results.

#### (i) External Growth Strategy

The Investment Corporation aims to achieve external growth by leveraging the development capabilities of the Takara Leben Group and the sourcing capabilities of PAG, both of which are backed by extensive track records. Aiming to create a well-balanced portfolio, we will acquire mainly development properties from the Takara Leben Group, and acquire carefully selected properties from PAG in areas and scales undeveloped by the Takara Leben Group. In addition, we will consider asset replacement, etc. in consideration of improving our portfolio quality.

#### (ii) Internal Growth Strategy

The Investment Corporation will conduct stable investment in real estate by receiving and utilizing expertise on real estate management suited to various asset classes from the sponsors.

#### (iii) Financial Strategy

The Investment Corporation's basic policy is to build a stable and sound financial base for the purpose of securing stable earnings over the medium to long term and achieving sustainable growth in the property portfolio. In order to realize this basic policy, the Investment Corporation shall procure and manage funds in accordance with the following policies.

#### (a) Funds Procurement (Equity Financing)

We may flexibly issue additional investment units for the purpose of property acquisitions, repair of properties, payment of management expenses of the Investment Corporation including repayment of borrowings or other activities, and are mindful of the potential of dilution of our investment units in considering economic conditions and other factors.

#### (b) Funds Procurement (Debt Financing)

The Investment Corporation may borrow funds or issue investment corporation bonds (including short-term investment corporation bonds) contributing to the steady growth of investment assets and efficient and stable management of the Investment Corporation's assets for the purpose of asset acquisition, payment of repair expenses or distributions, funding required for the Investment Corporation's management, or repayment of debts (including refund of leasehold and security deposits, repayment of borrowings, and redemption of investment corporation bonds).

With regard to lenders, the Investment Corporation will establish a stable bank formation that focuses on procurement from major financial institutions, and will consider various borrowing methods including commitment lines, and give consideration to the fixed and floating ratio and diversification of repayment deadlines.

#### (c) LTV

LTV (Note) shall be in principle no higher than 60%, with attention paid to securing sufficient funds.

(Note) LTV (%) =  $(a / b) \times 100(\%)$ 

a = Balance of interest-bearing debt at end of period

b = Total assets at end of period

#### b. Operating Results Forecast

The Investment Corporation's operating results for the period ending February 28, 2022, and the period ending August 31, 2022, is forecast as follows. For notes regarding assumptions underlying these forecasts, please refer to "Assumptions for the Forecasts of Financial Results for the Fiscal Periods Ending February 28, 2022, and August 31, 2022" on page 9.

In accordance with this policy, the Company decided to reserve 55,935,254 yen for the profit (excluding distributions in excess of earnings) in order to stabilize future distributions, considering that a 183,203,139 yen gain on sales of real estate, etc. (which is offset by a loss on sales of real estate, etc.) was generated, and to distribute as a profit distribution the entire amount of 1,433,750,000 yen after deducting the reversal of the above retained earnings and the reserve for temporary difference adjustment (which is defined in Article 2, Article 2, Item 30 of the Regulations Concerning the Calculation of Investment Corporations) from unappropriated retained earnings for the period. In addition, in consideration of the impact of the discrepancy in excess of income tax (as defined in Article 2, Paragraph 2, Item 30(a) of the Regulation on Accounting at Investment Corporations of Japan) on dividends, the Investment Corporation will distribute excess income in accordance with Article 36(1)(ii) of the Rules as an amount equivalent to the discrepancy in excess income tax as determined by the Investment Corporation. However, in the current fiscal year, no distribution in excess of profit was made due to internal reserves. | The amount shall exceed the amount equivalent to 90/100 of the amount of dividends available to the Investment Corporation as stipulated in Article 36, Paragraph 1 (1) of the Articles of Incorporation and Article 67-15, Paragraph 1 of the Act on Special Measures Concerning Taxation. #### [Notes on Financial Instruments]

- 1. Our Policy on Financial Instruments
- (1) Policy for financial instrument transactions

The Investment Corporation's basic policy is to build a stable and sound financial base for the purpose of securing stable earnings over the medium to long term and achieving sustainable growth in the property portfolio. Based on this basic policy, the Investment Corporation will raise funds by borrowing from financial institutions and issuing new investment units, taking into consideration the bank formation, various borrowing methods, fixed and floating ratio and the dispersion of maturity date etc.

We may flexibly issue additional investment units for the purpose of property acquisitions, repair of properties, payment of management expenses of the Investment Corporation including repayment of borrowings or other activities, and are mindful of the potential of dilution of our investment units in considering economic conditions and other factors. In the case of investment of surplus funds, we shall try to operate with consideration for safety and exchangeability.

In addition, for derivatives transactions, the Investment Corporation carries out such for only hedging purpose of interest rate risk arising from liabilities related to borrowings, etc., not for speculative purpose.

#### (2) Nature and extent of risks arising from financial instruments and risk management

Borrowings are primarily aimed at acquisition of assets, procurement of debt repayment / repayment funds, and are exposed to risks that the borrowings cannot be refinanced and the Investment Corporation manages the risk by diversification of lenders and issuance of new investment units etc. Regarding floating interest rate fluctuation risks, the Investment Corporation reduces the risk via interest rate swap etc.

## (3) Supplementary information on fair value, etc. of financial instruments

The fair value of financial instruments includes the value based on the market price, and the value reasonably calculated when there is no market price. Because the certain assumptions are adopted in the calculation of the above value, the value may differ depending on different assumptions etc.

#### 2. Fair Value, Etc. of Financial Instruments

The carrying amount, the fair value and the difference between them as of February 28, 2021, are as follows. Note that the following table does not include financial instruments for which estimation of fair value is recognized to be difficult (see (Note 2), below).

<sup>(\*)</sup> Assets and liabilities arising from derivative transactions are offset and presented in the net amount, with the balance shown in parentheses () when in a net liability position.

#### (Note 1) Calculation method of fair value of financial instruments and derivatives transactions

 $\left(1\right)$  Cash and deposits ;  $\left(2\right)$  Cash and deposits in trust

Because these are settled in a short period of time, the fair value is approximately the same as the book value and thus stated at the book value.

- (3) Current portion of long-term loans payable
  - Since these are settled in a short period of time and have variable interest rates, the fair value is approximately equal to the book value, so it is based on the book value.
- (4) Current portion of tenant leasehold and security deposits in trust

Because these are settled in a short period of time, the fair value is approximately the same as the book value and thus stated at the book value.

- (5) Long-term loans payable
  - Of long-term loans payable, those with fixed interest rates are calculated by discounting the total amount of principal and interest by the interest rate assumed to be applied if a new loan is taken out corresponding to the remaining period. Those with floating interest rates reflect market interest rates in a short period of time and their fair values are considered to be approximately equal to their book values, so the book values are used.
- (6) Tenant leasehold and security deposits in trust

Of the trust deposits and guarantee deposits, the balance sheet amount (6th fiscal period: 2,886,834 thousand yen; 7th fiscal period: 2,770,897 thousand yen) is not included in the above because it is considered difficult to estimate the scheduled return date. Since for items whose estimated repayment timing, etc. can be estimated, the fair value calculated based on the present value obtained by discounting the future cash flow by the period up to the repayment date and the interest rate including credit risk is close to the book value, the book value is used.

Derivative transactions

(Note 2) Financial instruments for which estimation of fair value is recognized to be difficult

(Unit: thousand yen)

| Item  | 6th Fiscal Period<br>(As of February 28, 2021) | 7th Fiscal Period<br>(As of August 31, 2021) |
|---|--|--|
| Tenant leasehold and security deposits (*)          | 114,695  | 205,535                                      |
| Tenant leasehold and security deposits in trust (*) | 2,886,834                                      | 2,770,897                                    |

<sup>(\*)</sup> Tenant leasehold and security deposits in trust and Tenant leasehold and security deposits are not subject to valuation at fair value, because a reasonable estimation of cash flows is recognized to be extremely difficult due to there being no market price and difficulty of calculating the actual deposit period from when lessees move in to when they move out.

[Notes on Asset Retirement Obligations]

6th Fiscal Period (from September 1, 2020 to February 28, 2021)

1. Asset Retirement Obligation Booked in the Balance Sheet

#### (1) Overview

The Investment Corporation has booked the asset retirement obligations required by regulations to remove asbestos from Nagoya Center Plaza Building and Sendai Nikko Building, acquired on July 30, 2018, and to eliminate PCB from Nagoya Center Plaza Building.

### (2) Method of calculating the amount of the asset retirement obligation

The amount of asset retirement obligations is calculated by estimating the expected period of use based on the useful life of the building in trust and using the following discount rates.

|          | Property                     | Expected period of use | Discount rate |

- (Note 2) "Acquisition price" refers to the purchase price (excluding consumption tax, local consumption tax, and miscellaneous expenses required in acquisition) stated in the real estate trust beneficiary interests purchase agreement or real estate purchase agreement for each investment asset, rounded down to the nearest million yen. Therefore, the total acquisition price of each investment asset may not match the amount shown in the "Total" and "Subtotal" columns.
- (Note 3) "Percentage of total acquisition price" is the ratio of the acquisition price of each investment asset to the total acquisition price, rounded off to the first decimal place. Accordingly, the sum of the percentages of total acquisition price for each investment asset may not match the percentages shown in the "Total" and "Subtotal" columns.

  (Note 4) "Appraisal value" indicates the appraisal value stated in the real estate appraisal report as of August 31, 2021. In addition, the term "real estate
- (Note 4) "Appraisal value" indicates the appraisal value stated in the real estate appraisal report as of August 31, 2021. In addition, the term "real estate appraisal report" generically refers to real estate appraisal reports prepared by the Investment Corporation in accordance with notes on real estate appraisal evaluation based on the Investment Trusts Act, the Act on Real Estate Appraisal (Act No. 152 of 1963, as amended), and the Japanese Real Estate Appraisal Standards by entrusting the appraisal evaluation of each invested asset to a real estate appraiser or an appraisal evaluation institution based on the evaluation standards.
- (Note 5) Since a portion of the "Kaden Sumairu Kan YAMADA Kobe Tarumi (Land)" land was transferred on June 24, 2020, the "acquisition price" is the amount obtained by subtracting the price commensurate with the share of the transfer area from the purchase price stated in the contract (excluding consumption tax, local consumption tax and various costs required for acquisition) is stated.

(Note 1)

"Date of Construction" is of the main building, as described in the property registry.

The number of tenants is equal to the aggregate number of end tenants with which valid lease agreements have been entered into as of August (Note 2) 31, 2021.

"Annual Contracted Rent" is the annualized amount calculated by multiplying the annual rent or monthly rent (limited to rent for space occupied (Note 3) by tenants, including common service fees (if any), and excluding usage fees for warehouses, parking lots and sales-linked rents) indicated in each lease agreements for each asset under management that is valid as of August 31, 2021, by 12. In addition, this amount does not take into account free rent or rent holidays (periods of free or reduced rent for a certain period at the start of the contract or during the contract period), but is calculated based on the amount of annual rent or monthly rent stated in lease agreements.

"Leasehold and Security Deposits" indicates the total leasehold and security deposits from the relevant tenants set forth in lease agreements effective as of August 31, 2021.

"Total Leased Area" indicates the total leased area to tenant in each property based on the lease agreements for building or floor plans as of (Note 5) August 31, 2021, rounded down to the second decimal place. For properties with pass-through type master lease agreements, the leased area is

quoted from the lease agreement.
"Total Leasable Area" indicates the gross floor area of leasable space in each property, based on the lease agreements for building or floor plans, (Note 6) rounded down to the second decimal place.

(Note 7) "Occupancy Rate" is calculated by dividing total leased area (as of August 31, 2021) for each property by the total leasable area, rounded off to the first decimal place.

For NT Building and Nagano Central Building, the figures provided are in proportion to our compartmentalized ownership. (Note 8)

(Note 9) Since the tenant has not provided consent to disclose the rent income, it cannot be disclosed due to unavoidable circumstances.

## (c) Individual Property Profit

## (e) Engineering, Environmental and Seismic Reviews

With respect to each property under management, the Investment Corporation has obtained an engineering report from Tokio Marine dR Co., Ltd. or Daiwa Real Estate Appraisal Co. regarding building inspections, compliance with related laws and regulations, repair cost assessments and environmental assessments. Information provided in engineering reports are solely the opinions of the respective reporting entities, and the Investment Corporation does not guarantee the validity and accuracy of their contents. Note that there are no special conflicts of interest between the following surveyors, the Investment Corporation, and the Asset Management Company.

In addition, the expected loss ratios due to earthquakes, or PML values, for the buildings associated with each managed asset is as follows. These PML values are based on seismic reviews prepared by Tokio Marine dR Co., Ltd. As of the date of this document, no earthquake insurance has been provided. The contents of the seismic reviews are solely the opinions of the reporting entity, and the Investment Corporation does not guarantee the validity and accuracy of their contents.
